91 BEST SUSHI

— C.S. —

A few New Haven establishments have taken a stab at supplying students with decent sushi, and a couple have achieved moderate success. But when the local offerings are short of spectacular, you must consider outsourcing. Sono Bana is your answer. Yes, it's in Hamden—but fear not! They deliver, which makes eating dinner even more convenient than Sushi on Chapel is to my apartment. The fish is fresh and cheap, and the combo entrees are all amazing deals—the Sushi Set boasts two rolls and seven pieces of sushi all for 15 dollars. Your best bet? Get a few friends and order a boat, then resist the urge to order more—trust me; it will be enough.
